

WESTERN INTERNATIONAL STOCKS AN EXTENSIVE INVENTORY OF CAVAGNA VALVES, KNOWN FOR QUALITY CONSTRUCTION, SAFETY AND DEPENDABILITY. MOST INDUSTRIAL, ACETYLENE, LPG AND MEDICAL VALVES ARE AVAILABLE FOR SAME-DAY SHIPPING.

Why Western's High Pressure Valves?

- One-piece internal safety relief device
- Ergonomically designed hand wheel
- Proven O-ring seal operating system
- Low operating torque
- Special pin-style seat for O₂
- Available in all inlet and outlet thread types
- Markings protected against damage
- 100% pressure tested at 1.2 x service pressure
- Available for 1,800—6,000 psi service

Acetylene

Industrial

Medical

Acetylene - Avoid damaged stems, costly valve repair and dangerous leaks with Western's acetylene valves, featuring a double O-ring design.

Industrial - Westerns' industrial valves feature quality production and proven technology to satisfy the most demanding international valve performance standards.

Medical - All medical valves available through Western are DOT hm-220d COMPLAINT. Each features a high-quality chrome finish and is subjected to full-service pressure testing and stringent adiabatic compression testing prior to sale.
