

Sherwood Valve LLC **Valves**

Why Western's High Pressure Valves?

- One-piece internal safety relief device
- Ergonomically designed hand wheel
- Proven O-ring seal operating system
- Low operating torque
- Special pin-style seat for O₂
- Available in all inlet and outlet thread types
- Markings protected against damage
- 100% pressure tested at 1.2 x service pressure
- Available for 1,800 – 6,000 psi service

Western International stocks an extensive inventory of Sherwood valves, known for quality construction, safety and dependability. Most industrial, acetylene, LPG and medical valves are available for same-day shipping.
